

# **Chronic Prostatitis Treatment by Herbal Medicine**

**By Herblist Dr.Lee**

# CHRONIC PROSTATITIS

- **What Is Chronic prostatitis**

An inflammation of the prostate gland. The prostate is a small gland located below a man's bladder. It surrounds the urethra and produces most of the fluid in semen. Prostatitis may be caused by a bacterial infection, but in many cases the cause of the condition is unknown.

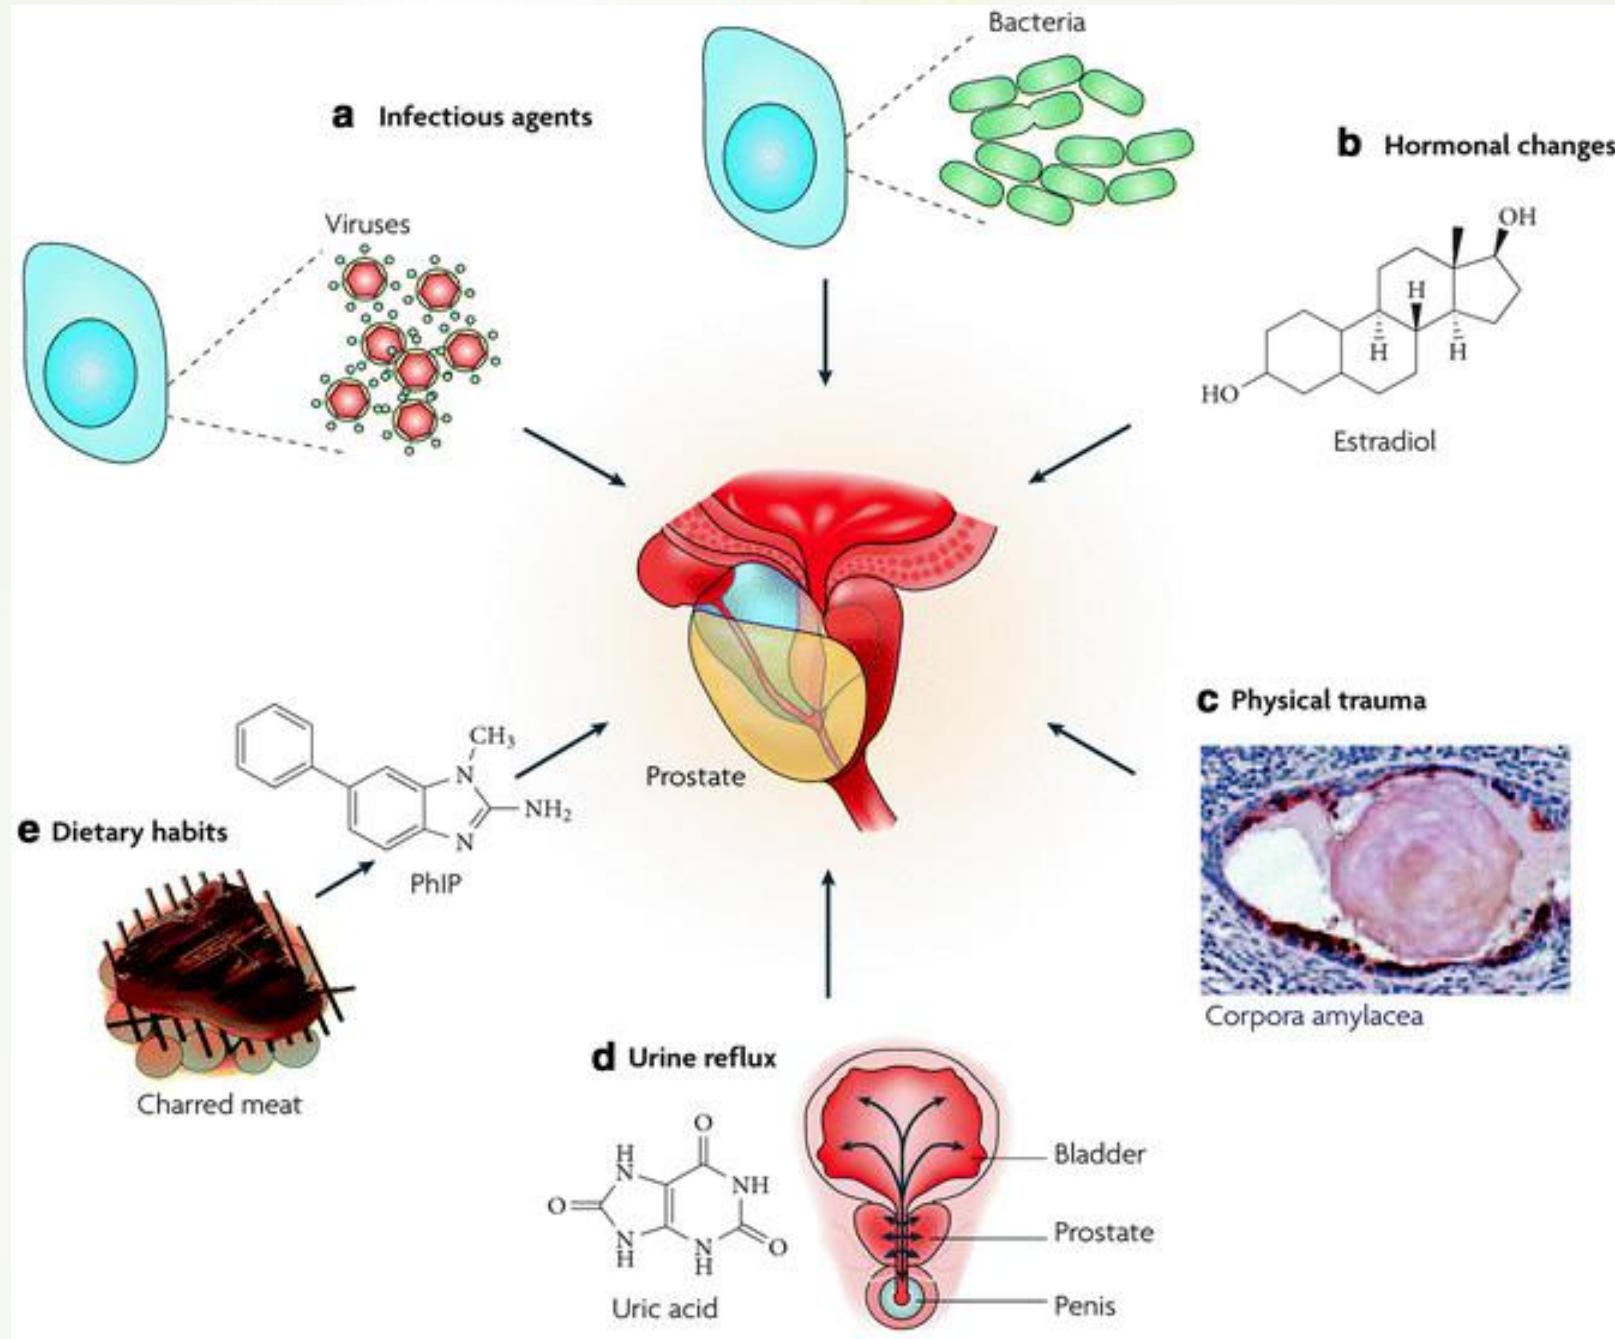

- **Types of Chronic Prostatitis**

Chronic Bacterial Prostatitis

Chronic Prostatitis or Chronic Pelvic Pain Syndrome (CP or CPPS)

# CAUSES

Chronic bacterial prostatitis is caused by a bacterial infection. Causes of CP and CPPS are unknown.

# TREATMENT

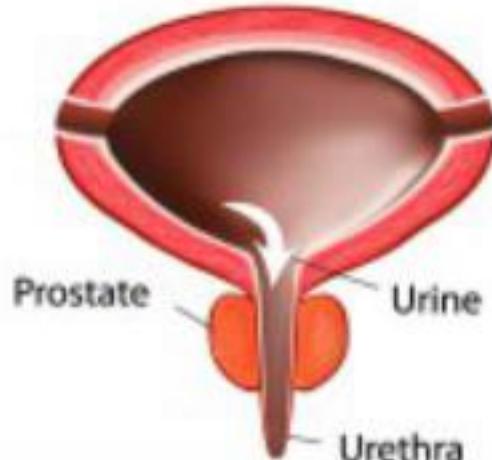

## Chronic Bacterial Prostatitis(CBP)

When chronic prostatitis is caused by a bacterial infection, it can be treated with antibiotics. When the cause is unknown, treatment of the symptoms may be the best course of action.

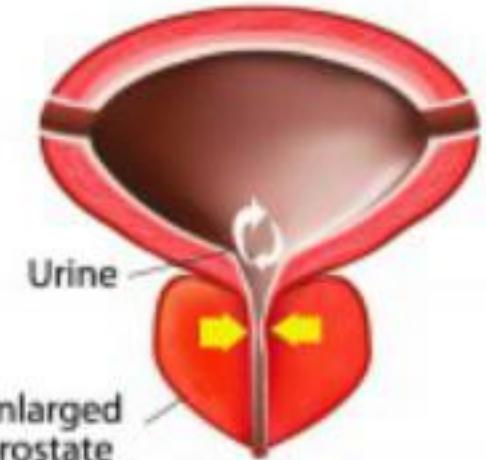

## CP or CPPS

Chronic Prostatitis or Chronic Pelvic Pain Syndrome can be treated by safe and effective herbal medicine better.

**Normal prostate**

**Prostatitis**

# CHRONIC BACTERIAL PROSTATITIS

**Antibiotic** is one of the most typical treatments on clinical, once you noticed being with prostatitis, take Antibiotics to treat immediately, do not allow the inflammation go deeping. Antibiotics for prostatitis include:

Avelox

Bactrim

Doxycycline

Cipro

Keflex

Levaquin

Rocephin

Tetracycline

IV Infusions

# CHRONIC NONBACTERIAL PROSTATITIS

We all know with long-term apply of antibiotics, some diseases may develop strong resistance, so with the abuse of antibiotic, more and more antibiotics are useless. Sometimes, even the symptoms become milder, it sooner become severer. Furthermore, the side-effect of antibiotic is huge which can damage kidney's function, so patients should take antibiotic carefully. Once you have recurrent prostatitis, antibiotics will not be a wise choice.

The most common type of chronic prostatitis is CHRONIC NONBACTERIAL PROSTATITIS, it's Chronic Prostatitis or Chronic Pelvic Pain Syndrome, which is easy to recurrent and hard to cure.

# CHRONIC NONBACTERIAL PROSTATITIS

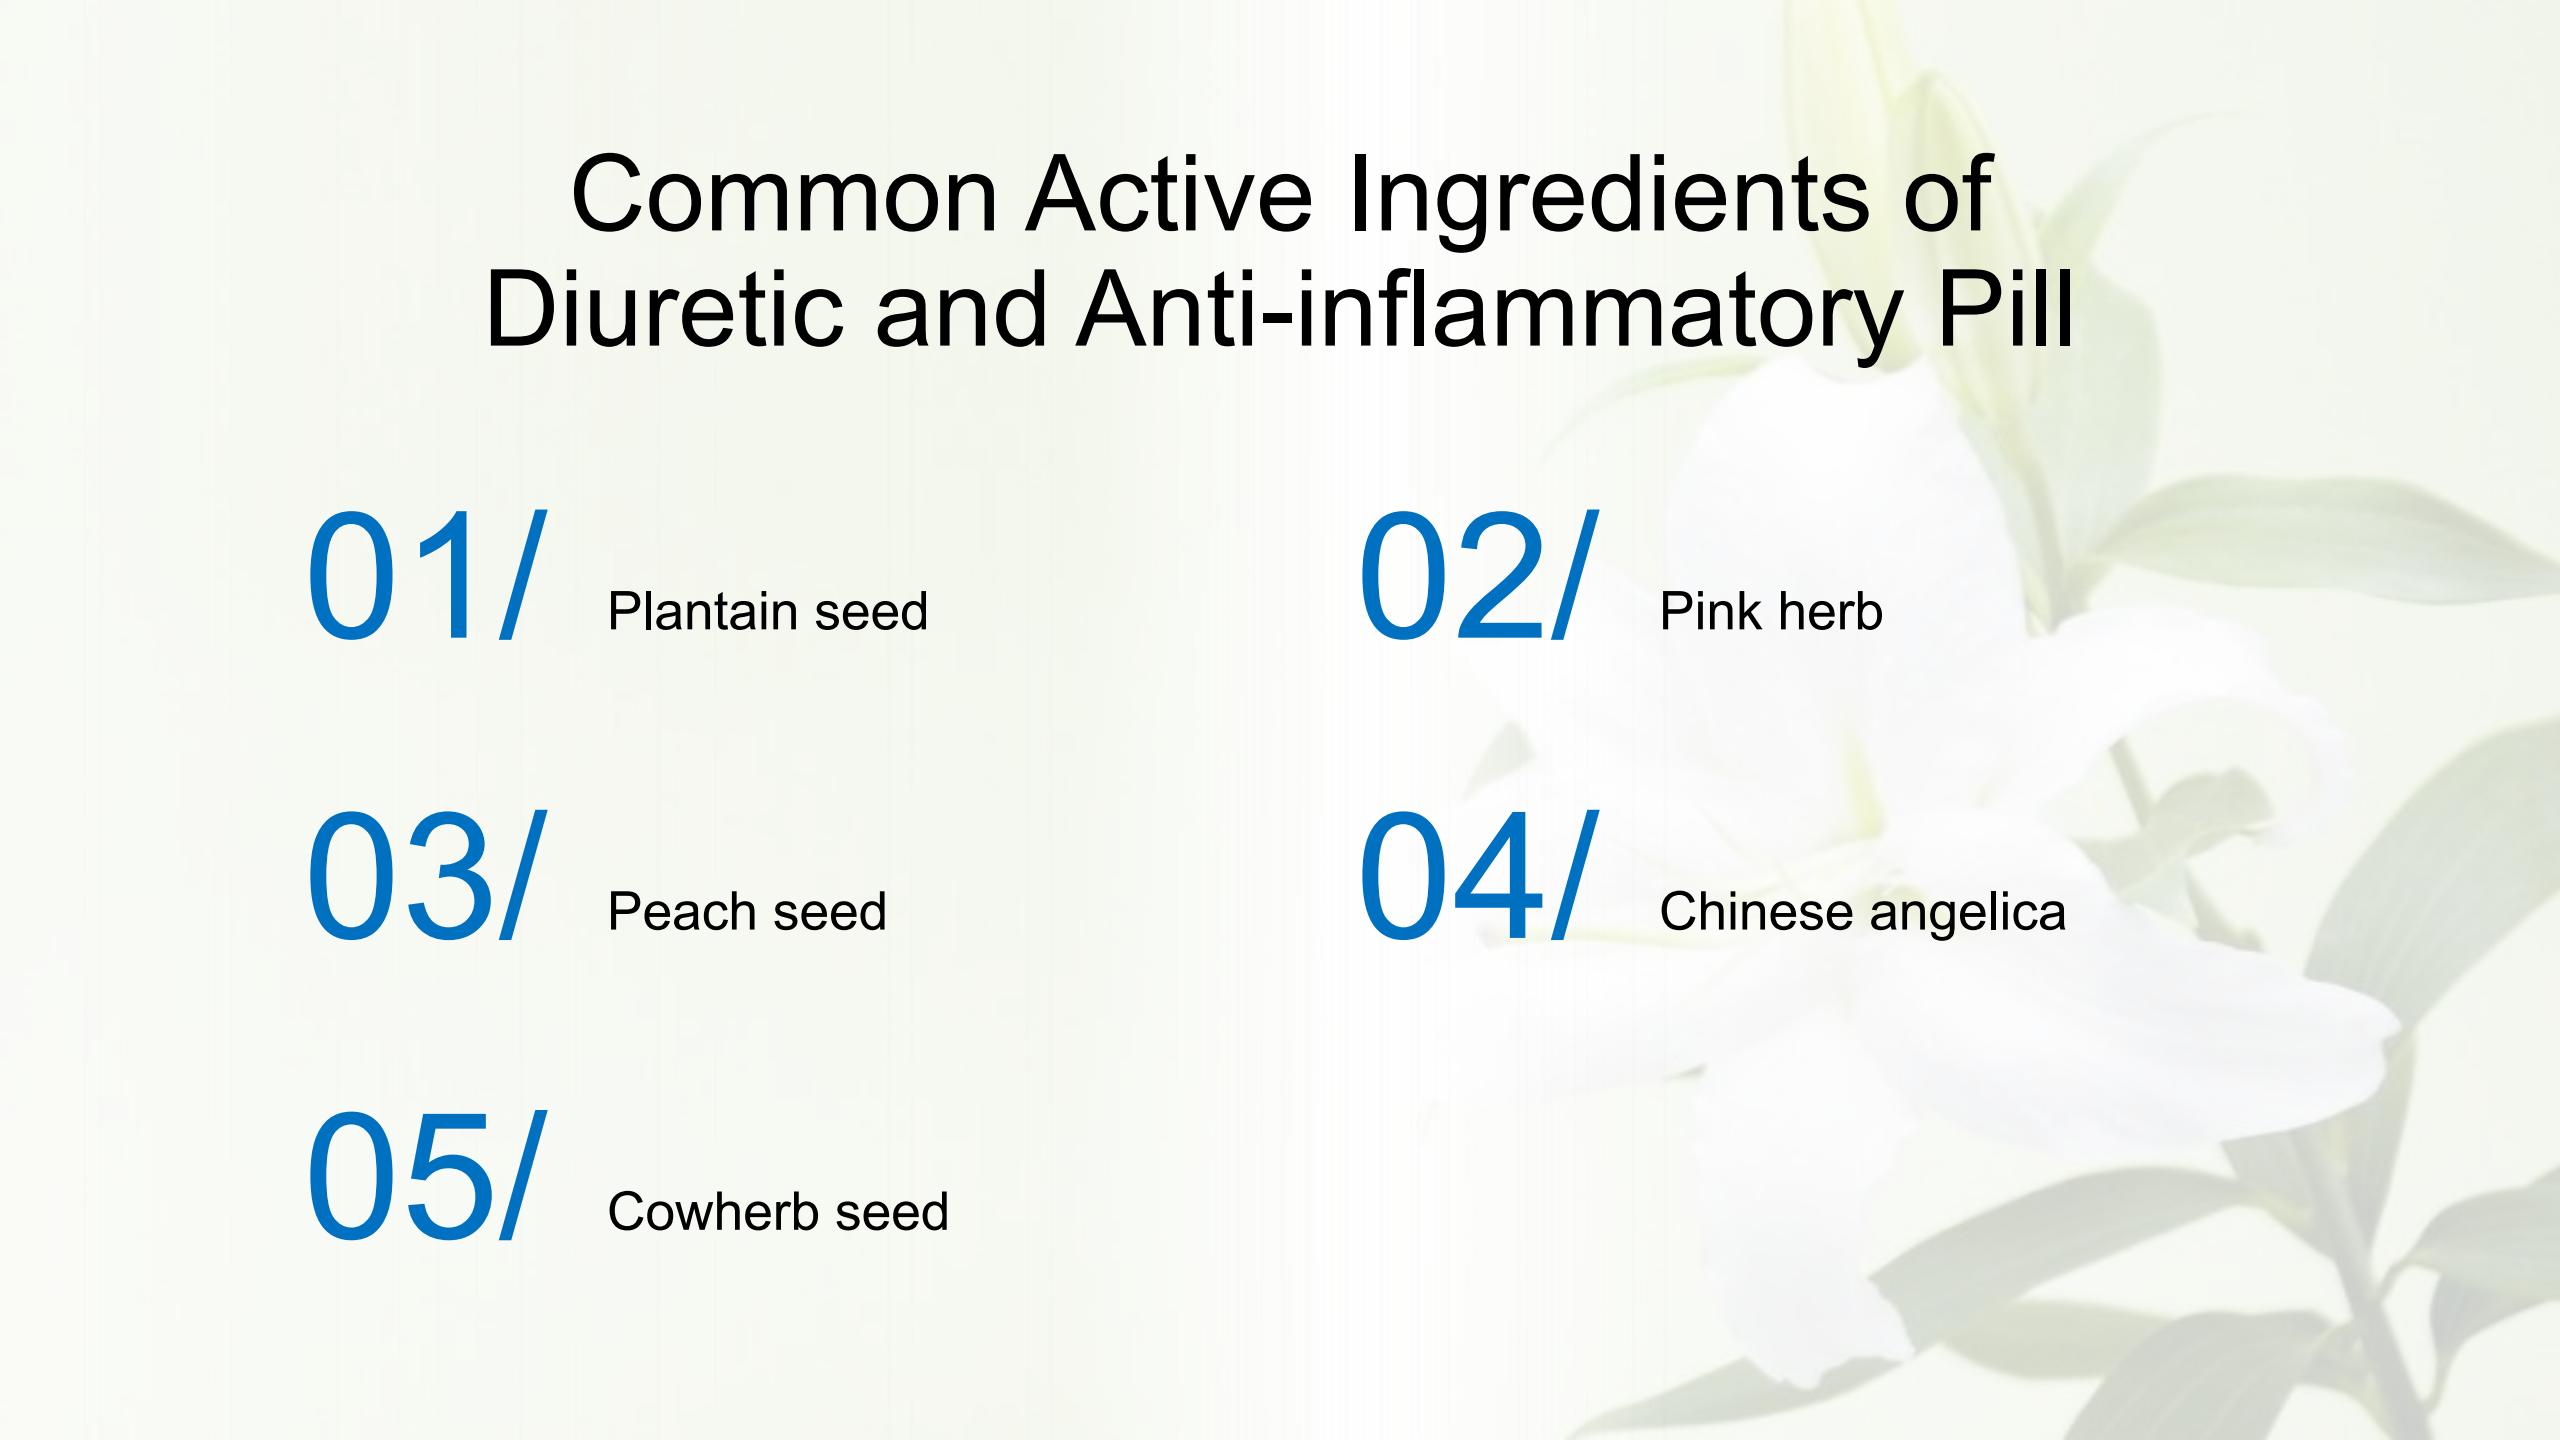

Alternative treatments for prostatitis can include supplements, dietary changes, and lifestyle remedies like sitz baths. To cure chronic prostatiti some safe and efficient medicine would be necessary. The medical system of Traditional Chinese Medicine (TCM) has more than 5000 years' history. To treat chronic disease such as chronic prostatitis, herbal medicine is much better than antibiotics. Generally herbal **Diuretic and Anti-Inflammatory pill** created by purely herbs. And its special formula makes it work effectively and directly into reproductive system and urinary system, to completely clear up infections. It terminates chronic pain by notably improving blood circulation and eliminate inflammation gradually.

# Diuretic and Anti-Inflammatory pill

How does Diuretic and Anti-inflammatory Pill work on these diseases?

1. It is a formula-completed recipe with intact effects. The herbal medicine is made by the combination of these herbs based on the ancient prescription. So it is a completed formula for these urinary and reproductive diseases mentioned above, not only curing these diseases from the symptoms but also from the root causes.
2. It can kill Pathogens including e.coli, gonococcus, staphylococcus, chlamydia, ureaplasma urealyticum, mycoplasma hominis, etc.
3. It can dissolve stasis and dissipate abnormal tissue, which can open the blocked duct and make it function well.
4. It can promote urination to solve the urine problems like urinary frequency, urgency etc.
5. It can promote blood and Qi circulation to release the pain caused by infections.
6. It is made of natural herbs that can not bring any side effects like drug resistance and kidney damage etc.
